CHARGE OF PROGRAMS

Miss Bodanya To Open 1937 Season On Sunday November 14

Four brililant American artists are among those whom have been selected for the 1937-38 Sunday vesper concert programs to be held Sunday afternoons in Memorial

hall, begining November 14. Those who will appear are: Natalie Bodanya, a soprano with the Metropolitan Opera Association; Ernest McChesney, an American tenor; Stephen Hero, accomplished young American violinist, and Ezra Rachlin, former child prodigy who has grown into one of the foremost

ounger pianists of our times. The musicales, which are held at 4 p. m. each Sunday during the win-ter months, have been increasing in popularity yearly. Open to the pub-lic without charge, they are given inder the auspices of the University and attract music-lovers from all

Miss Mildred Lewis, instructor in the music department and chairman of the musicale committee, has arranged this year's series which in cludes local in addition to imported attractions. R. D. McIntyre, in charge of last year's program, is on leave of absence from the Univer.

Among the local attractions on the programs will be the University Philharmonic Orchestra under the direction of Carl Lampert; the University Concert Band, John Lewis directng; Men's and Women's Glee Clubs, and the University Choristers under the direction of Mildred

Miss Bodanya will open the 1937-8 season on Sunday, November 14. A New York girl from the East Side who has had a sensational rise to fame, her recent role of Miscaela in "Carmen" won unanimous praise from critics. On her opening night, she delivered an exhibition of lyric singing so fine that it stopped the

TRAMPLE CATS 41-0

VOLUNTEERS WANTED!

This is Constitution Year. The Honorable Sol Bloom, General Director of the United States Constitution Sesquicentennial Commission, has fixed the dates for the nationwide celebration from September 17, 1937, to June 30, 1938.

The pre-Christmas Vespers, at the request of Dean Alvin E. Evans, Chairman of the local committee, will be held in the spirit of, and as a part of the Constitution Celebration and will consist of a celebration in Memorial Hall with an early American setting.

We need actors, dancers, singers, instrumental players soloists, costumers, and stage hands. We need a script, historians, music, songs, and dances, besides an organization of students and faculty, to make it a real campus celebration, expressing the patriotic and cultural ideals of the University and the State of Kentucky.

Having been asked to take charge of this part of the Constitution Celebration, I am appealing, through the courtesy of THE KENTUCKY KERNEL, to all students and faculty members who would like to participate in the preparation for the event and the celebration itself as actors, musicians, script writers, committee members, etc. Please, all who will offer your services, send your name and type of contribution by telephone or note to my office in the basement of the Administration Building, Registrar's office, not later than Monday, November 8.

> (Signed) WILLIAM VAN DE WALL, Professor of Music Education

Character And Thinking

REQUENTLY it is Tasked of college students: "What do you get out of your life on a University

campus? What do you get out of a classroom?" It is particularly interesting to the college student himself to note results of his development during his collegiate career.

In reply to the first question and also relative to the second comes the inevitable reply from administrative officers: "Our main aim is to build character and to teach students to think for themselves."

It must be gratifying for them to note that the students of this University have themselves signified that character is the main requisite which they desire in one another. In a twelve year survey conducted by Dr. W. D. Funkhouser, dean of the graduate school, character has been the primary necessity of both male and female students when asked to list in order of preference their chief desires in opposite sexes.

But it is even more interesting to note in what order traits were placed by these students in Doctor Funkhouser's heridity classes. In listing the most desireable traits for a mate, women classed these traits in the following order:

- 1. Character
- Health
- Disposition Education
- 5. Family Business ability
- Good looks
- Social position
- 10. Money
- 11. Religion
- 12. Desire for children

Observing this evaluation, it is not difficult to comprehend the present lack of children in families whose parents have had the opportunity to obtain college education.

Looking at the qualifications in order of preference set by men we have almost the exact list. Me have changed but few of these places listing them in the following order:

- 1. Character
- 2. Health Dispositon
- Good looks
- Family 6. Education
- 7. Desire for children 8. Dress
- 9. Social position
- 10. Business ability
- 11. Money 12. Religion

Judging from these statistics, the fact that character and the closely related traits of health and disposition play the prominent role in the selection of a husband and wife, it becomes evident that the faculty of this University has been successful in culminating one phase of their aim.

But what of the matter of independent thinking? Does the fact that education, business ability, and religion have been placed further down in the list indicate any sign of thinking? Does the fact that students have relegated the desire for children to last place indicate any sign of intelligent thinking? Is it not important to propogate the intelligent race? Or does it, perhaps, mean that the students have acquired the necessary confidence in themselves and have made those points of secondary importance in their mates?

It would be extremely interesting to note the attitude of the student body through the stages of development. It could be determined by asking students to classify themselves on these points during their four years of college life. It would be worthwhile to take time during a class to make this classification.

In that way it could be determined whether the student outlook has matured during their informative stage.

Kentucky Loses A Friend

N THE recent passing l of William F. Klair the University has distinctively lost a great friend and a

potent ally.

Although in the last few years Mr. Klair's political activities had not brought him directly in touch with the University, it is a well known fact, however, that whenever the University desired a friendly representative either before the always available and always ready to act.

It is perhaps in the years gone by that his contact with the University bore more direct fruit. While in the legislature and in common with the late Thomas A. Combs, Mr. Klair had been able many times to bring to the attention of legislatures in a forceful way, needs of the University and then, through his superb leadership, many times to procure needed help and to promote policies from which the University staff enjoys

THE KERNEL through the student paper, and speaking in behalf of the entire University, desires to proclaim his worth anew and deplore his death.

Scrap Irony

NGLAND has had enough trouble. What with their king abdicating and a complete outsider winning the Grand National and everything. They really deserve something better than having their soldiers shot in China. The Japs don't seem to appreciate England's position though. They keep on shooting Britishers and Anthony Eden keeps demanding things. The statement has been made, and it sounded authoritative, that if diplomatic relations become any more involved, England will have to fight before Christmas. This may seem a bit sensational, but it's true and if you have noticed it, people are taking more interest in the military department than ever before. They are asking questions and that is bad. Whenever people start asking questions it is definitely bad. We hate to get serious even for one paragraph, but the thing worries us.

There is a system being practiced at Purdue University which we think might well be considered by the Greek organizations on this cam-

It seems that the fraternities have a file in which they keep all material pertaining to courses on the campus. They have book-reports, final examinations, etc., and whenever one of the brothers finds himself in need of any instruction he merely presents himself to the keeper of the file (they have a keeper) and says, "I should like to have access to the files, sir." It is a sort of an "Open sesame" affair for when he says the words, lo!' he has the wisdom of the ages before him! The thing bears investigation,

SIDESHOW

By DON IRVINE

'HAT war in China is no more than a sandlot hockey game compared to the battles staged in the Art Center radio studios on Thursday afternoons. The only difference between them is that, so far, no one has been killed at the studios. At least, when they counted the cast after each broadcast everyone seemed to be there, except one 'cellist Kentucky legislature or elswhere Mr. Klair was out of the orchestra, who disappeared and hasn't been found

The first airwave battle at the Art Center was declared ome weeks ago when George Jesse's Microphone Players re-defeated General Braddock. Unless memory is faulty, it was in that play that Steve Bladek, in the height of the fight, stomped up to mike and cried "Nov schmoz ka pop!" to the startled radio isteners. In@ war scenes the chief duty of all

performers is to make as much noise as possible, and some remarkable things have come to pass in the heat of battle.

Last Thursday, Director Jesse deided to recapture the state of Ohio from the Injuns. Accordingly, a blood-curdling script was pre pared, replete with such celebrities as George Washington, Anthony Wayne, and General St. Clair, and extra supports were built into the walls in preparation for the big The first and only hearsal was held an hour before the broadcast deadline. At the same time Reed Hoskins was tuning up an also-unrehearsed staff orchestra, and the combination of sounds resembled old London's Bediam on the night of a wild party for the lunatics. This blast of sound continued unabated until the stroke of one-thirty. At that hour the Tinker Dean—Mary McKenna— Jesse Mountjoy musical program blossomed forth in another studio, and the thinness of the walls ne essitated quiet.

In the interim Reed Hoskins and his orchestra frowned over their music stands, whispering desperately about whether to play two or three measures of music fills be-The players lolled around smoking or unobtrusively reading lines. The big electric clock ticked away the musical program, and at a quarter to two, the cast crowded about the microphone carefully tearing the corner clips off their scripts to eliminate paper The musical offering ended, Jesse Mountjoy came tearing in from the other studio to take the part of George Washington's secretary.

Everyone watched the clock. The second - hand jerked nervously around the dial: half a minute twenty seconds; ten seconds; five seconds; . . . and then the red light blased above the clock. The rewinning of Ohio was on the air.

The fanfare from the orchestra crescendoed and diminuendoed as Bill Cross made the opening ancement. The music then faded away and Frank Ellis, as the Father of our Country, spoke the first line The premier scene had something to do with St. Clair's defeat and Washington's decision to recall Mad Anthony Wayne to the army. The second scene, with Sid Buckley and Mary "Hula" Henderson as Mr. and Mrs. Mad Anthony Wayne, depicted Wayne's joyful reception of the nmand to get back into military harness. The messenger bringing the order (Bob Nash) was supposed to enter on horseback, but due to a hitch in the sound department command arrived in utter silence. The third scene was the conflict between General Wayne and the

state of Ohio, or something. The battle began with an Indian war-whoop lustily supplied by Director Jesse. After that the cast stomped about in unison, vaguely impersonating a marching army. There was scattered gunfire from the drum section of the orchestra. Then, as the redskins were sighted, everyone yelled ferociousy. Shells exploded to the south of the microphone when Dirctor Jesse whammed hell out of a tympany. The cast gave way to luxurious abandon and intermingled falsetto war-whoops with soldiers' cries. Bugles blew, shots rattled, and just as the thing was taking on a Cab Calloway aspect, the play ended, and the performers collapsed in a heap on the

After the last explosion had died away and the building steadied itself, Stoney Walton, who had been listening in on a receiving set, said, "It certainly did sound funny!" Oh, well, it is sort of futile after

BULL PEN

By GEORGE H. KERLER

DERHAPS it sounds crazy but 2 o'clock Saturday afternoon I would have bet my house bill that Alabama would not beat Kentucky by 14 points. The prediction that the Tide would calcimine us by 41 digits could only be the utterance of an inebriated Alabama patriot. But it happened and happened convincingly. So let's, from the journalistic dugout atop Denny Stadium, figure out just what occurred.

hattan the players were frostbitten.

Crumbs of snow fluttered. Arctic

haberdashery was necessary for

snoot up if she were shoved onto

of its ability.

at those kids.'

It was Homecoming Day in Tuscaloosa and Coach Frank Thomas evidently planned to unleash all the Tide's expressions of power. A good show would undoubtedly register happily with the alumni. Besides, the Wildcats usually have a competent defense and the game presented a ripe self-preservation. But in Tusca-loosa, the pink line in the thermochance to test the effectiveness of his backfields. You can imagine him saying, "Kentucky beat a meter cooked at 85. The Denny gridiron resembled the yellow strong club last week. They're in a wastelands of Arizona. A fastidi-ous cow would have turned her respectable notch. Turn on and see what happens."

But the Red Elephants misunderstood the mildness of "turn on." They interpreted the urging phrase to mean-Burst forth with all infantry and artillery. Never before was it my privilege to watch a team function with such devastating power, swiftness, and accuracy, The squad that could have stopped Alabama on the sweltering afternoon of October 30, 1937, has not yet been manufactured.

Thomas employed three back-fields, 12 guys named Kilgrow. It doesn't matter what particular pigskin toter you're thinking about. The third string fullback was just as unstonnable as the man who started the romp. Substitutions weaken most teams, but not Ala-An aggregation that can inject three quartets of cleated an-telopes cannot be pacified with one 'two touchdowns. When there are four scoremaniacs on the field constantly somebody's goaline is in

Not once during the embalming did the Bama ramrods open their trick suitcase. When a coach's steeds are all football War Admirals he need not fret about deception. Speed is a better guarantee of touchdowns than an occult of-

There is the first reason why they wrecked us. Swiftness. The other offensive premise was easy to observe. Their blocking was destructive. When an Elephant slammed a Kentuckian with a block the Blue Grass Blade was scythed. It mystifies me yet why Alabama didn't beat us by 70 markers. They might have done it if their backs, all in eagerness, did not leave the interference so abruptly. When a flyer cut in too soon he always encountered an unexplained Blue-shirt who wearily knocked him to the dust. Had the Alabaman stayed tucked behind his scouts, he would have tallied more frequently.

But it was when the Alabamas were on defense that they hurt his lap. The best move Kentucky can make is fo yank itself out of the calculation of the calculations and match up with Were on defense that they have the Kentucky. The endless replacements kept the Red line continually savine when Red Simpson was can make is fo yank usen one of the Mississippi outfits or the continually savine when Red Simpson was can make is fo yank usen one of the Mississippi outfits or the continually savine when Red Simpson was can make is fo yank usen out the continual transfer of the mississippi outfits or the continual transfer out the contin rank at 40 miles per, two Crimson togas socked him. The Bessemer can escape it. bench. No four backs in the nation could endure an afternoon of such The Wildcat backfield is gone. The mental menace of that started off proudly with Rob- Kentucky's date book is in the past. inson, the Davis brothers, and Simpson finished with Shepherd, last 15 Kentucky teams have been Curtis, Waddlington, and Carnes. Flip that over in your head and you can feel the pummeling the Cat backs took.

Fleetness, destructive blocking, barbaric tackling mixed with the show-off element inspired by Homecoming produces a gridiron burgoo that cannot be digested. The Thomasmen play Tulane, Georgia Tech, and Vanderbilt before the curtain hides the goal posts. If the Tide can maintain their Ken-tucky pace they will beat those If three schools by 20 points each. If they can wriggle out of the agreement that the Southeastern loop winner must play in the Sugar Vase, nothing will hamper the foot-ball gods in awarding the Crimson cycione its fifth Rose Bowl game. It is my personal conviction, that Saturday's Alabama troop is the greatest football team I have ever

What can the Wildcats say in self-defense? Automatically, the secondary groggy. Line bucks ripped the sweating Wildcats apart but the sweating wildcats apart Garland, Bosse, and Hinkebein Bama success through the wall was should have been reclining peacefully in deck chairs Saturday in-stead of being banged from one end of the pasture to the other. the season matched against three Bob Davis played furiously despite defeats. Alabama registered its the fact he had but one arm. sixth straight win and seemed des-Walter Hodge, who has performed creditably at fullback during Kentucky's two previous games, was forced into action when Simpson was led off the stripes. With his walking gait reduced the pep and swagger of Stepanfetchit, the Paris came ten minutes after the battle started. Kentucky forced Bama to punt twice. Kilgrow returned a kick to Kentucky's 42 and three bombshell was of little use. A third stringer, Wilce Carnes, entered the meet in Whirley's position and un-expectedly handed in a praiseworthy

Blanketing the casualty list was the psychological condition of the team. Kentucky sincerely believed it had a chance to win the battle. The 'Cats should have been con-Cubbin, Cat end who turned in a Grade A performance during the cerned with minimizing the Ala-bama touchdown profit. But that's his one yard line and halted the sally. Hodge, who replaced the batsecond guessing, so discount it.

Another factor lies in the complete job of diagnosing the Bama emissaries did. The Tuscies were aware of our every play. Ordinarily, our passing game is fair.

The first semester, Kentucky tered Simpson, kicked into undangerous territory. The Tide came on again but Pete Vires, guard replacement, recovered a fumble on Kentucky's 18 and killed that drive.

End 'Round And 'Round' County desperately to get out of In the first semester, Kentucky tossed ten passes. Three were in-Trying desperately to get out of his backyard the Blues tried a pass tercepted, seven were batted to the straw. They knew all about us.

" * * * * but Cox, Elephant center, na it a tore back to the Cats' 12. They knew all about us.

The final point embraces the treachery of weather. Against Man-

and dashed across the Cat line

lonesomely.

A few plays after the Tide's kick off Kentucky fumbled and Alabama recovered. Starting on the K-28, the Alabamas scored in three plays. Two line bucks drove to the 19, and then Kilgrow on a mystic reverse shot the distance to the double stripe. Killer Kilgrow again booted through the bars and the ledger stood, Bama 20, Cats, 0. The Davis Gem

Elephants kicked off once more Bob Davis gathered it in and con tributed the longest run of the day Taking the tumbing oval on his own 17, Davis, sleeves rolled to above his elbows and franticly at tempting to get Kentucky back in the game, started up the field Slashing and twisting he fought his way to Alabama's 30 where a redshirt caught up and hauled him to the sod. He covered 53 yards. But two plays later Moseley inter

cepted a pass on the Tide's 22. From that point the Thomasmen burst forth with a miraculous exhibition of power, power. They knifed through the Kentucky stock ade for five consecutive first downs The speedy and crushing backfield knocked the Cats past stripe after stripe. The push was climaxed by Moseley's ten yard flip to Roberts for their fourth touchdown. San ford booted the score to 27.

Shortly after the second half began the A-men scored again, Sle mons tallying on a wide end sweep from the one yard line. Sanford again converted. A 15 yard penalty against Kentucky aided the Bama burst considerably.

Kentucky Holds

For the rest of the third stanza the Cats stopped the Tide. Alabama quick kicked twice beautifully and kept the visitors from threatening. The teams battled evenly through the first part of the last quarter. Cab Curtis, a third string halfback got in the game for Kentucky and threw three passes, all completed. Garland and McCubbin were the receivers and for a moment it looked like Kentucky might shake loose for a much coveted touch down.

Journey's End Near final curtain time Alabama kicked and Kentucky was penalized for clipping, putting them back to their own four. At that spot a Kentucky back fumbled and the Tide

hungrily recovered on Kentucky's

one foot line. Waites plunged

over and Sanford toed it up to 41.

the cataclysm took place. Taking over a deep drag, all he could say was, to 41. Shepherd toted the kickoff up to his 26 and then Curtis and Waddl- tackle, slipped through a host of

were this afternoon we could not To demonstrate the ferocity of have beaten them. This heat would Alabama play, on the next try with but a minute to play Cab Curtis drew off to pass again. He barely managed to get off a heave which was intercepted near midfield. And Morehead 6.

In the second quarter Coach fry any team not used to it. Look A glance at the dressing room George?" It was unbelieveable. label. They looked like thoroughly domesticated Persian felines. They didn't walk. They crawled. The rushed a passer into insensibility. To defeat Alabama it will take about three years of crafty planning

Robert K. Salyers, National Youth administration Director for Kentucky and secretary of the University Alumni Association, and other Early in the final quarter Smith NYA officials met with President wept around end, and lateraled the Franklin D. Roosevelt Friday, Octoball to Jones as he was tackled on ber 29, at his Hyde Park, New York estate. The purpose of the meeting was to discuss the youth program sponsored by the Federal government.

Culminating a four day confernce of NYA officials which began October 26, the Hyde Park discussion chiefly concerned problems which have confronted youth ad-ministration officials and revised operating procedures.

Mr. Salyers presented to Wash ington officials a summary report reviewing NYA activities during the two year period ending June 30, 1937. An expenditure of \$3, 526,582.67 for the operation of NYA student aid and work projects in Kentucky was revealed in the re-

More than 24,000 high school and college students were enabled to continue their education through NYA part-time employment, while approximately 18,500 out-of-school and unemployed young people were given fundamental work training on NYA work projects, the report also

More than 12,500 youth have left the NYA work projects, the report disclosed. "Many of these young people have received jobs in private industry as a result of experience gained through NYA employment," Mr. Salyers said. He stated, however, that approximately 3,000 young people have been released because of curtailment in the program.

Mr. Salyers' report pointed out that the main objective of NYA is the provision of assistance for young people, but that communities and schools have benefitted as sponsors of the projects. Buildings have been repaired, small buildings constructed, equipment made, and garments distributed to needy fam-

The NYA for Kentucky, as a part of its vocational guidance program, has compiled and distributed numerous occupational studies, for use by school executives, teachers, employers, and young people. These publications have attracted nation wide attention, Mr. Salvers stated
